Hey, thank you for all you guys have done for our community. It's not fair what some people are saying/doing to you. You have your own families who miss you and want you home but instead you're working what seems to be endless hours helping people in need. You all are the backbone of our community. You don't deserve the hate that has been directed towards you. Thank you for continuing to work and help. Please

be brave during this hard time. We love and appreciate you all. I'll keep you in my prayers. ♥

Dear Healthcare worker/s,

10/1/21

I'm sorry about everything that has happened to you since this pandemic started just because you're trying to protect everyone. You do not deserve to be threatened and violated just for doing what is right. But also, thank you for doing your best to keep everyone safe and happy and saving lives at the same time.

Dear health care workers even if other people  
don't appreciate you and your hard work I do  
and I am sorry for all the things you go through just  
because you chose to help people, I'm sure other  
people understand that the families who have had  
loved ones pass away aren't the only ones who have  
sacrificed, you sacrifice your time and health to  
help and cure people of a virus that kills people and  
it's obvious you aren't going to be able to save everyone,  
I wanted to thank you even if no one else will  
and wanted you to know I am grateful for your  
hard work and sacrifice.

Sincerely,  
Chris

Thank You!

# Dear Healthcare Heroes:

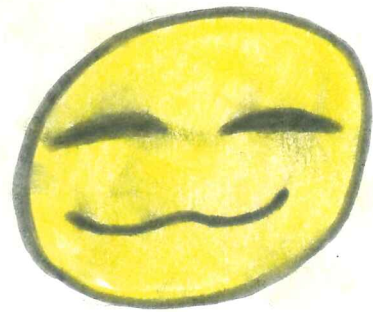

As a highschool student in the medical field, I like to pretend I know what I'm talking about. But you actually do, and it took a lot of hard work to get there. So thank you for all that hard work to help others.
