Could you please pass along how much Steve and I appreciate the dedication and sacrifice of all the health care workers for the past 18 months? Through so many ups and downs, our community, they have soldiered on. We appreciate them taken with their own health and the health of their families during an especially difficult time and we want them to know that everything we can to make sure we are not contributing to the problem both are vaccinated and eagerly awaiting news of being able to mask even outside when there are crowds. We support our hospital staff and leadership and pray that we will be back in time soon.
